# IOWA CHAPTER - ASHRAE

## FOREWORD

The 2009-2010 Chapter Membership Directory and Product Directory of Manufacturers and their Representatives in the Central Iowa area has been prepared by the Iowa Chapter of ASHRAE as a service to all its members and as a service to the local HVAC industry.

The Directory is intended to provide better communications between manufacturers and their sales representatives; engineers who specify products; contractors who purchase and install the equipment; and other interested parties. Product Directory listings are not limited to ASHRAE members and the listings are not to be considered as advertising or endorsement by ASHRAE of any product, manufacturer or representative.

Since the Directory is useful when the data it contains is current in all respects, the Chapter re-issues an updated version on an annual basis.

As a change from previous years, the membership roster is now a direct listing of the information that Society has on each member – including your mailing preference. This was changed to help coordinate membership information between the Chapter and Society levels. All required corrections to the membership roster will be sent to Society for correction, not just changed at the Chapter level. Your help in maintaining your correct information with Society will help to ensure you get timely and accurate ASHRAE information.

Roger Leshner - ASHRAE Iowa Chapter President

Additional copies of this Directory are available at \$5.00 per copy.

Suggestions on ways of improving the Directory or notification of errors in this edition are sincerely invited.
