# IOWA CHAPTER - ASHRAE

## FOREWORD

The 2020 Chapter Membership Directory and Product Directory of Manufacturers and their Representatives in the Central Iowa area has been prepared by the Iowa Chapter of ASHRAE as a service to all its members and as a service to the local HVAC industry.

The Directory is intended to provide better communications between manufacturers and their sales representatives, engineers who specify products, contractors who purchase and install the equipment, and other interested parties. Product Directory listings are not limited to ASHRAE members and the listings are not to be considered as advertising or endorsement by ASHRAE of any product, manufacturer or representative.

Since the Directory is useful when the data it contains is current in all respects, the Chapter re-issues an updated version on an annual basis.

The membership roster is based on ASHRAE's database. Members are encouraged to verify their information and update their bio on [www.ashrae.org](http://www.ashrae.org). Please note that corrections have been made to this directory, in cases where the authors have been made aware of changes in employment or contact information.

Additional copies of this Directory are available at \$10.00 per copy.

Suggestions on ways of improving the Directory or notification of errors in this edition are sincerely invited. Please contact:

System Integration

The ability to integrate many existing building automation systems into one seamless user interface, including HVAC Retrofits, Existing Pneumatic control systems and most factory mounted control systems on HVAC Equipment.

Niagara Tridium

Tridium is the global leader in open platforms, application software frameworks, automation infrastructure technology, energy management and device-to-enterprise integration solutions.

Acuity Distech Controls

Web-based multi-function Direct Digital Controls (DDC) platform available in both BACnet and LonWorks. Wireless EnOcean communication Protocol. (DDC Systems include BACnet MS/TP, N2 and Lon Communication.)

Woodman Analytics

Woodman analytics solution combines big data with the IoT to give you eyes into facilities that you've never had before. Woodman Analytics gathers and analyzes building performance data to deliver actionable information that helps you make better decision

Acuity Distech Integrated Room Controls

End-to-end system for the control of HVAC room terminal equipment, lighting, and shades/sunblind. Unique, modular solution designed for local or room applications, such as offices, patient rooms, dorms, military housing, etc.

Belimo Valves and Actuators

Belimo branded ball valves, globe valves and butterfly valves.

Belimo Damper Actuators

Belimo branded damper actuators.

Belimo Sensors

We have access to the full line of building automation peripherals, such as Current Transducers, Relays and Power Monitoring and Consumption products.

Acuity Nlight

nLight® is a networked digital lighting control system that provides both energy savings and increased user configurability by cost effectively integrating time-based, daylight-based, sensor-based and manual lighting control schemes. nLight creates an unmatched level of distributed intelligence.

VFDs

Factory certified installation and start-up for ABB, Yaskawa and Danfoss VFD's.
