Iowa Stalks Monthly Newsletter - March 2021

This Month at ASHRAE Iowa

Join us for another virtual chapter meeting this month on Tuesday, March 16 at Noon! Lunch will be provided via GrubHub digital gift card to order from your favorite local restaurant. Cutoff for registration to receive the gift card is Monday March 15th at 5:00pm.

> You are invited to a Zoom meeting When: Mar 16, 2021 12:00 PM Central Time (US and Canada)

> > Register in advance for this meeting:

https://us02web.zoom.us/meeting/register/tZ0od--hrT0sGdJf5e5RZmjZAkCgOi458vLT

After registering, you will receive a confirmation email containing information about joining the meeting.

The Region VI CRC this year will be a hybrid in person and virtual event from April 27 through May 1. See more information at the link below.

https://www.newiashrae.org/crc-2021

Mark your calendars for May 17 when we will be holding the annual Spring Fling Golf Outing at Des Moines Golf and Country Club.

President's Corner

Hey there, it looks like spring is trying it's best to arrive this month, let's hope the warmer weather continues

This month's meeting will focus on hydronic balancing and take place over the lunch hour on March 16th. Attendees will get a gift card for lunch. We hope to see you there. On April 27th, we have Society President Chuck Gulledge presenting his presidential theme on "Design-Build-Operate-Maintain. What could possibly go wrong?". Our most recent Chapter President, David Poetting, will present his chapter history

As vaccines begin their roll out, positivity and hospital rates drop, and our state opens up we have been thinking long and hard about when to get ASHRAE back to in-person meetings. I know I'm eager to get drink tickets in Zaug's hands and chat with members face to face. However, we have decided to follow society's lead and the recommendations of the CDC regarding gatherings and finish out the regular chapter meetings as virtual events this year. We looking forward to seeing everyone in person at the golf outing at Des Moines Golf and Country Club in May

As we continue to look forward to a more normal future, be on the lookout for board member elections within the coming weeks. Presidentelect Tyson Scheidecker has been hard at work

GAC UPDATES!

Government funding and coronavirus relief legislative package

Several provisions of interest to ASHRAE members were included as part of the recently passed government funding and coronavirus relief package. This includes \$82 billion in Covid relief funding for schools that can be used for building system inspections, maintenance, repair, and upgrades projects to improve IAQ. In addition, the legislation makes permanent 179D tax deduction for energy efficient buildings. The legislation also includes HFC phasedown authority to the EPA, increases the DOE budget, and provides EnergyStar funding.

This is an enormous piece of legislation that staff is still reviewing and will provide further details on.

Iowa Legislative Session

The lowa legislative sessions kicks off January 11, 2021. As a result of Covid, we will not be doing the Design Professionals Day on the Hill this year. We will continue to monitor legislation, socially distanced, and report back to the chapter.

State Board Positions

The state of lowa has a number of boards that provide guidance and rulings on things that impact our profession. These boards include the boiler and pressure vessel board, examining boards, elevator safety, plumbing and mechanical, and several others. We encourage you to review and apply to available board positions at https://talentbank.iowa.gov/.

Consider ASHRAE eLearing

In light of coronavirus concerns and the impact the pandemic is having on travel, ASHRAE eLearning, a 100% web-based training allowing you to learn at your own pace and when convenient, can be a valuable resource. Courses can be accessed anywhere, anytime, and from any computer with an internet connection. Courses contain interactive exercises that enable you to engage and retain what you have learned. Learn more.

Offerings include these popular course packages:

- Fundamentals: HVAC Systems
- · HVAC Control Systems
- System Essentials
- DDC Controls
- Electrical System Design
- Sustainability
- Standard 62.1: Ventilation for Acceptable Indoor Air Quality
- Standard 90.1: Energy Standard for Buildings
- Standard 189.1-2011 High Performing Green Buildings
- Loads and Modeling

Recently Updated:

- Introduction to HVAC Design (1.5 PDHs)
- Refrigeration System Parameters and Key Performance Indicators (KPIs) (1.0 PDH)

Once enrolled, you have 12 months to complete your training.

Why ASHRAE eLearning?

- Convenient way to learn about new applications and standards
- Easy way to keep up with license and certification requirements
- · Approved by AIA and GBCI
- Earn PDHs/CEUs
- Courses created by industry leaders in HVAC&R

For the complete eLearning catalog, please visit https://elearning.ashrae.org/.

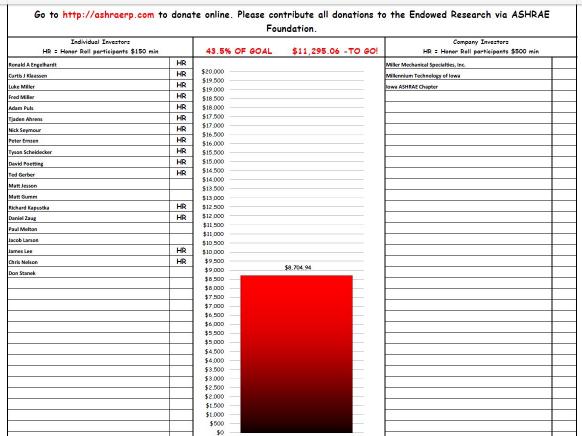

Individuals can register online at https://elearning.ashrae.org/ and immediately gain access. Companies can register employees by contacting elearning@ashrae.org or calling 678-500-3917.

ASHRAE eLearning is an approved Continuing Education provider for the American Institute of Architects (AIA), and a U.S. Green Building Council (USGBC) Education Partner. Continuing Education (CE) hours earned from ASHRAE eLearning may be applied toward maintenance of state-licensed professionals (architects and professional engineers) and LEED credentials.

Thank you,

ASHRAE eLearning

Research Promotion

This year, the BOG is encouraging you to donate online in an effort to save paper and increase the efficiency of the RP donation process. Please visit the ASHRAE RP Donation page here. ASHRAE provides options for you to determine where to place your donation. The lowa Chapter is looking to increase its endowment and would appreciate it if you would place your donation in the box available next to "Endowed Research via ASHRAE Foundation", check the box indicated that you understand that those funds are restricted for the support of ASHRAE Research, and put "lowa Chapter" in the "Existing Fund Name (If known):" box. From there it's as simple as any other online purchase with a credit card.

Don't forget that ASHRAE is a 501(c)(3) organization. Contributions are deductible as allowed by law. A receipt will be sent to the address listed above.

If you would still prefer to donate by check or have any further questions about the donation process, please contact Tjaden Ahrens.

Thank you for your donation!

Industry News

Turbomachine Expander Offers Efficiency, Safety for Heating, Cooling

Purdue University researchers developed a device to decrease energy consumption of the vapor-compression heat pump cycle, which is commonly used in homes, businesses and vehicles for cooling and heating. The team created a novel turbomachine expander that helps harvest previously wasted energy used in the process of moving the air from high to low pressure. The device can be used as a control agent within an existing heat pump.

Read more

Astronauts Replace Coolant Pumps on International Space Station

Two astronauts spent more than six hours installing replacement coolant pumps during a spacewalk on Monday. The astronauts attached the 350-lb (159 kg) pump module to the 6.8 metric ton Alpha Magnetic Spectrometer (AMS), plugged in power and data cables and spliced together eight existing coolant lines. The AMS was not designed to be serviced in orbit, so connecting the coolant lines while working in pressurized spacesuits was especially challenging. Read more

MIT Creates System that Cools Without Using Electricity

A new system provides cooling with no electricity by using the process of radiative cooling. The device, which has no moving parts, uses an aerogel insulation that blocks and reflects visible rays of sunlight. The system can keep fruits and vegetables from spoiling and can help double the time the produce remains fresh in remote places where reliable power for refrigeration is not available. Read more

Thermal Comfort Model Measures Body Shape With Sensors

A team at Carnegie Mellon University has created the first model that combines environmental information with data on an individual's body shape to determine thermal comfort. Information is aggregated to find the temperature that the most occupants possible will find comfortable. The system estimates body shape information from depth-imaging sensors, which are less privacy-invasive than approaches such as cameras. Read more

Water Battery Powers Air-Conditioning Systems

A three-story "water battery" is producing enough energy to power a university's air-conditioning systems, which is reducing its reliance on the grid by more than 40%. The water battery is a thermal energy storage system that uses energy generated by a 2.1-megawatt photovoltaic system to cool 4.5 megaliters of water resting inside a three-story tank. The campus' air-conditioning systems use the cooled water. Read more

ASHRAE offers 7 certification programs that demonstrates a design professional's knowledge and skills in a practice area. The certifications allow you to standout to potential clients and enhance your reputation.

Certifications offered:

Certified HVAC Designer (CHD)

High-Performance Building Design Professional (HBDP)

Building Energy Modeling Professional (BEMP)

Building Commissioning Professional (BCxP) Healthcare Facility Design Professional (HFDP)

Building Energy Assessment Professional (BEAP)

Operations & Performance Management Professional (OPMP)
