IOWA CHAPTER - ASHRAE

FOREWORD

The 2025 Chapter Membership Directory and Product Directory of Manufacturers and their Representatives in the Central Iowa area has been prepared by the Iowa Chapter of ASHRAE as a service to all its members and as a service to the local HVAC industry.

The Directory is intended to provide better communications between manufacturers and their sales representatives, engineers who specify products, contractors who purchase and install the equipment, and other interested parties. Product Directory listings are not limited to ASHRAE members and the listings are not to be considered as advertising or endorsement by ASHRAE of any product, manufacturer or representative.

Since the Directory is useful when the data it contains is current in all respects, the Chapter re-issues an updated version on an annual basis.

The membership roster is based on ASHRAE's database. Members are encouraged to verify their information and update their bio on www.ashrae.org. Please note that corrections have been made to this directory, in cases where the authors have been made aware of changes in employment or contact information.

Suggestions on ways of improving the Directory or notification of errors in this edition are sincerely invited. Please contact:

Ethan Proctor

General Information

Baker Group is a large design-build Industrial and Commercial MEP Contractor based in Iowa. We emphasize long-term relationships, while supporting clients with Piping, Plumbing, Electrical, Structured Cabling, Ductwork, Specialty Metal Products, Site Utilities, Certified Pressure Vessel Welding and other Specialty Services, including Infrared Thermography, Voice/Data/Video Systems, Vibration Analysis and Laser Alignment. In addition, we offer industrial and commercial automation, Video, Security and Fire Alarm Solutions. Our MEP VDC/BIM skills support our advanced manufacturing capabilities.

BuildingIT by Baker Group
(Schneider Electric, TAC, Invensys, Siebe, Barber-Colman, Robertshaw, Rockwell Automation/Allen Bradley, Alerton, Tridium and Lynxspring Control Systems)

Complete line of building automation and industrial process automation sensors, valves, controllers and graphical software interfaces.

Transair an AIRpipe Compressed Air Piping

Complete modular 'push connect' or 'clam shell' aluminum compressed air piping systems designed for quick installation, efficient air flow and maximum future flexibility.

Air Compressors - Chicago
Pneumatic, FS Curtis, and Powerex

Complete Industrial compressed air system & air treatment solutions.

Samuel Pressure Vessel Group,

Metasys

Direct Digital Control (DDC) Systems with Metasys User Interface through a PC, tablet, or smart phone. Communication protocols include BACnet IP, BACnet MS/TP, N2, Modbus, and LON. Wireless systems available utilizing ZigBee technology.

Open Blue Enterprise Management

Energy management software that collects, analyzes, and displays building energy and equipment data. It identifies issues, faults, and opportunities for improved performance, operational savings, reduced energy consumption, and lower energy costs.

Central Plant Optimization

Allows you to operate your central plant at its most efficient level. The innovative software algorithms make real-time automatic adjustments to the system based on real-time building loads, resulting in significant energy savings.

Healthcare Environment Optimization

The hospital's building automation system reacts in real-time to surgical scheduling – documenting environment conditions, saving energy, improving clinical outcomes, and improving patient care.

Metasys Compatible Products

Integration to standard HVAC equipment with manufacturer furnished and installed controls. (Includes boilers, chillers, fume hood controls, lighting controls, KWH monitoring, VFDs, Rooftop Units, Computer Room Units, and Air Handling Units)

Product Description

System Integration

The ability to integrate many existing building automation systems into one seamless user interface, including HVAC Retrofits, Existing Pneumatic control systems and most factory mounted control systems on HVAC Equipment.

Niagara Tridium

Tridium is the global leader in open platforms, application software frameworks, automation infrastructure technology, energy management and device-to-enterprise integration solutions.

Distech Controls

Web-based multi-function Direct Digital Controls (DDC) platform available in both BACnet and LonWorks. Wireless EnOcean communication Protocol. (DDC Systems include BACnet MS/TP, N2 and Lon Communication.)

Division-25

Seamless visualization of numerous building systems all on one screen. Integrated automation for an IoT platform for most building automation technologies. Coordination and design team assistance from conceptual layout through commissioning and operation.

Distech Integrated Room Controls

End-to-end system for the control of HVAC room terminal equipment, lighting, and shades/sunblind. Unique, modular solution designed for local or room applications, such as offices, patient rooms, dorms, military housing, etc.

We have access to the full line of building automation peripherals, such as Current Transducers, Relays and Power Monitoring and Consumption products.

Acuity Nlight

nLight® is a networked digital lighting control system that provides both energy savings and increased user configurability by cost effectively integrating time-based, daylight-based, sensor-based and manual lighting control schemes. nLight creates an unmatched level of distributed intelligence.

VFDs

Factory certified installation and start-up for ABB, Yaskawa, Danfoss and other VFD's.

VRF Factory Controls Installation

Field installation of factory provided VRF controls for all major brands. Factory certified technicians trained in installation means and methods.

Smart Air Control Valve (SACV)

Highly accurate, fully dynamic, and pre-assembled. air control valve solution. Simplified engineering design with superior turndown ratio offering concise model selections for various application and occupancy levels. Full turnkey solution.

Atrius Facilities

Atrius Facilities is a cloud based building management software that unifies access installation and maintenance systems.
